

Fir Tree Junior School Homework for Year 4

We use homework as a way of building on and strengthening the learning we cover in school. The expectations for homework for our class are to read daily; practice our spellings and times tables.

Homework in our class is set on Monday and is to be returned on Friday. We welcome any 'Surprise me Homework' (this is any work your child might like to do to link with our project during the term).

We will be using Microsoft Teams to set our homework. Please log in using your username and password; follow the instructions for your homework and complete the work in your red homework book. If you prefer a paper copy of the homework, please let your teacher know.

Reading

We encourage children to read at home, independently or with an adult. This should be a combination of reading with and reading to your child and can include a range of reading materials, e.g. recipes, timetables, poems, newspapers as well as comics and storybooks. Please record the daily reading shared at home in the back of the homework book - a minimum of 4 entries a week.

Spelling

Each week we will be learning spelling patterns and rules that enable us to acquire the new National Curriculum Year 3 and 4 spellings, as well as any other words they are finding challenging; to support this, the children are encouraged to choose activities from the 'Spelling Activity Menu' to help practise these spellings so that they feel confident with spelling the words. These are due in every Friday.

Times tables

To help your child learn their times tables, we suggest they practise approximately 2 or 3 times a week using a range of approaches. For example writing them out in order, chanting, dice and card games and ICT, such as 'Hit the Button' or TT Rockstars.

Project Homework

As part of their project, children will generate a bank of possible homework ideas to explore at home which will form part of their display in project sharing afternoons. If children would like any resources or support with these in school, please see your child's class teacher.

Surprise Me Homework

We encourage and support "Surprise Me" homework, in which children can further explore any learning and direct their own inquiry and interest (this may or may not be linked to school). If you have any queries about homework please come and see us and we will be more than happy to help.
